#### 2.3 Other hazards

#### Endocrine disrupting properties

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: This substance does not have endocrine disrupting properties with respect to humans.

#### Results of PBT and vPvB assessment

Preparation related information

There are no data available on the mixture itself.

Information on ingredients

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

The data refer to the product as delivered. The solutions for use produced according to dilution recommendations are to be classified differently. Can harm the aquatic fauna when entering surface waters. Can harm the bacteria population in waste water treatment plants when entering the sewerage system. Breathing is not possible whilst submerged in the foam. Take care when spraying people!

**SECTION 3: Composition/information on ingredients** 

## 3.1 Substances

not applicable

## 3.2 Mixtures

### INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES

Concentration: 100 - 100%

The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP].

The product does not contain any relevant amounts of substances that are on the SVHC list.

For full text of Hazard- and EU Hazard-statements: see SECTION 16.

## **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

#### General information

Remove contaminated, saturated clothing immediately. Wash thoroughly the body (shower or bath). Observe risk of aspiration if vomiting occurs. When in doubt or if symptoms are observed, get medical advice.

#### Following inhalation

Provide fresh air. Consult a doctor immediately in the case of inhaling spray mist and show him packing or label.

## In case of skin contact

Wash immediately with:: Water

#### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.

## Following ingestion

Do NOT induce vomiting. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.

### 4.2 Most important symptoms and effects, both acute and delayed

Dizziness Nausea

Gastrointestinal complaints

## 4.3 Indication of any immediate medical attention and special treatment needed

If unconscious but breathing normally, place in recovery position and seek medical advice. IF SWALLOWED: Immediately call a POISON CENTER/doctor/....

## **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

## 5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

### 5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

## **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

## 6.2 Environmental precautions

Cover drains.

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

## 6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. Treat the recovered material as prescribed in the section on waste disposal. Suitable material for taking up Sand Sawdust

Chemical binding agents, containing acids

## 6.4 **Reference** to other sections

Safe handling: see section 7

Personal protection equipment: see section 8 Disposal: see section 13

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

Avoid

Skin contact Eye contact Wear personal protection equipment (refer to section 8).

	Measures to prevent fire
	The product is not
	oxidising
	Combustible
	Flammable
	Explosive
	Highly flammable
	No special fire protection measures are necessary.
	Environmental precautions
	Shafts and sewers must be protected from entry of the product.
	Advices on general occupational hygiene
	When using do not eat, drink, smoke, sniff.
7.2	Conditions for safe storage, including any incompatibilities
	Technical measures and storage conditions
	Do not store at temperatures above: +50°C
	Requirements for storage rooms and vessels
	Suitable container/equipment material
	Refined steel
	Polyethylene (PE)
	Unsuitable container/equipment material
	Aluminium
	Light metal
	Copper
	Zinc
	Alloy, containing copper
	Alloy, contains light metal
	Iron.
	Steel
	Hints on joint storage
	Storage class
	12: non-combustible liquids that cannot be assigned to any of the above storage classes
7.3	Specific end use(s)
	Fire-extinguishing foams based on synthetic surfactants
	Do not use for cleaning purposes.
	Recommendation
	Observe technical data sheet.
SEC	TION 8: Exposure controls/personal protection

## 8.1 Control parameters

Substance name: ---CAS No.: ---REACH No.: ---Occupational exposure limit values: ---; Limit value type (country of origin): ---

## 8.2 Exposure controls

Advices on general occupational hygiene

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.

Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work.

## Eye/face protection

Suitable eye protection Eye glasses with side protection goggles Face protection shield Recommended eye protection articles EN 166

## Hand protection

Suitable gloves type Gloves with long cuffs Suitable material NBR (Nitrile rubber) Butyl caoutchouc (butyl rubber) Breakthrough time 120 min. Thickness of the glove material > 0.6 mm Recommended glove articles EN ISO 374 Breakthrough times and swelling properties of the material must be taken into consideration.

#### **Body protection**

Body protection: not required.

#### **Respiratory protection**

Usually no personal respirative protection necessary.

#### Environmental exposure controls

Store concentrate according to national regulations. Do not let the concentrate get into the environment. If possible, hold back the application solution and dispose of after use.

## **SECTION 11: Toxicological information**

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 a) Acute toxicity Acute oral toxicity Preparation related information LD50 > 2000 mg/kg The acute oral toxicity is corresponding to GHS-category 5. Species Rat Method Calculation method. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP]. No classification in the above-mentioned hazard class (Source: Safety Data Sheet) Acute dermal toxicity Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP]. No classification in the above-mentioned hazard class (Source: Safety Data Sheet) Acute inhalation toxicity Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP]. No classification in the above-mentioned hazard class (Source: Safety Data Sheet)

### b) Skin corrosion/irritation

 Preparation related information

 non-irritant.

 Species
 -- 

 Method
 Calculation method.

 Information on ingredients

 INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

 non-irritant.

 (Source: Safety Data Sheet)

### c) Serious eye damage/irritation

 Preparation related information

 Causes eye irritation.

 Species
 -- 

 Method
 Calculation method.

 Information on ingredients

 INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

 non-irritant.

 (Source: Safety Data Sheet)

#### d) Respiratory or skin sensitisation

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: not sensitising. (Source: Safety Data Sheet)

## e) Germ cell mutagenicity

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: No indications of human germ cell mutagenicity exist. (Source: Safety Data Sheet)

## f) Carcinogenicity

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: No indication of human carcinogenicity. (Source: Safety Data Sheet)

## g) Reproductive toxicity

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: No indications of human reproductive toxicity exist. (Source: Safety Data Sheet)

## h) STOT-single exposure

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

No known symptoms to date. (Source: Safety Data Sheet)

## i) STOT-repeated exposure

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: No known symptoms to date. (Source: Safety Data Sheet)

j) Aspiration hazard

Preparation related information There are no data available on the mixture itself. Information on ingredients INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES: No known symptoms to date. (Source: Safety Data Sheet)

## **11.2** Information on other hazards

Endocrine disrupting properties

Preparation related information

There are no data available on the mixture itself.

Information on ingredients

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

This substance does not have endocrine disrupting properties with respect to humans. (Source: Safety Data Sheet)

### Other information

Breathing is not possible whilst submerged in the foam. Take care when spraying people!

	Preparation related information
	There are no data available on the mixture itself.
	Information on ingredients
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	No classification in the above-mentioned hazard class
	No information available. No classification in the above-mentioned hazard class
	(Source: Safety Data Sheet)
12.4	Mobility in soil
	If product enters soil, it will be mobile and may contaminate groundwater.
12.5	Results of PBT and vPvB assessment
	Preparation related information
	There are no data available on the mixture itself.
	Information on ingredients
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
	(Source: Safety Data Sheet)
12.6	Endocrine disrupting properties
	Preparation related information
	There are no data available on the mixture itself.
	Information on ingredients
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)
12.7	Other adverse effects

## 13.1 Waste treatment methods

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

## Waste codes/waste designations according to EWC/AVV

Waste code product

- 06 WASTES FROM INORGANIC CHEMICAL PROCESSES
- 0603 wastes from the MFSU of salts and their solutions and metallic oxides
- 060314 solid salts and solutions other than those mentioned in 06 03 11 and 06 03 13

#### Waste code packaging

- 15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED
- **1501** packaging (including separately collected municipal packaging waste)
- 150110\* packaging containing residues of or contaminated by dangerous substances

## Remark

Delivery to an approved waste disposal company.

Send to a hazardous waste incinerator facility under observation of official regulations.

## **SECTION 14: Transport information**

14.1	UN number or ID number
	none
14.2	UN proper shipping name
	not applicable
14.3	Transport hazard class(es)
	Land transport (ADR/RID)
	No dangerous good in sense of these transport regulations. Inland waterway craft (ADN)
	No dangerous good in sense of these transport regulations.
	Sea transport (IMDG)
	No dangerous good in sense of these transport regulations.
	Air transport (ICAO-TI / IATA-DGR)
	No dangerous good in sense of these transport regulations.
14.4	Packing group
	not applicable
14.5	Environmental hazards
	none
	Marine pollutant : No
44.0	Creatial was southing for your
14.0	Special precautions for user
	none
14.7	Maritime transport in bulk according to IMO instruments
1417	not applicable
SEC	TION 15: Regulatory information
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixtur
	EU legislation
	Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer
	not applicable
	Regulation (EU) No. 649/2012 of the European parliament and of the council concerning the export and import of dangerous
	chemicals
	not applicable
	Directive OC/EO/EC (DCD avidative)
	Directive 96/59/EC (PCB-guideline)
	not applicable
	Regulation (EC) No. 648/2004 [Detergents regulation]
	The surfactant contained in this mixture complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents
	Information according to 1999/13/EC about limitation of emissions of volatile organic compounds (VOC-guideline).
	Volatile organic compounds (VOC) content in percent by weight:: max. 0
	Regulation (EC) No. 842/2006 on certain fluorinated greenhouse gases
	not applicable

does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

## Regulation (EC) No 2020/784 [PFOA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

### Regulation (EC) No 2021/1297 [C9-C14-PFCA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

### National regulations

**Störfallverordnung (12. BlmschV)** This product is not classified according to StörfallV.

#### Water hazard class

slightly hazardous to water (WGK 1) Self-classification according to AwSV (mixture).

## Annex Chemikalien-Verbotsverordnung (ChemVerbotsV) not applicable

## **15.2 Chemical Safety Assessment**

Chemical safety assessments for substances in this mixture were not carried out.

## **SECTION 16: Other information**

The product described in the Safety Data Sheet may only be used for its intended purpose. For exercises please observe the recommendations of the technical committee of BMU/LAMA. The details in this safety data sheet are based on today's stand of our knowledge and is applicable to the product with regard to appropriate safety precautions. They do not represent any guarantee of the properties of the product and do not establish any legal relationship.

Please refer to our internet website for more information. www.sthamer.com

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
