### **SECTION 4: First aid measures**

|     | General information  |
|-----|--|
|     | Remove contaminated, saturated clothing immediately.   |
|     | Wash thoroughly the body (shower or bath).   |
|     | Observe risk of aspiration if vomiting occurs.   |
|     | When in doubt or if symptoms are observed, get medical advice.   |
|     | Following inhalation   |
|     | Provide fresh air.   |
|     | Consult a doctor immediately in the case of inhaling spray mist and show him packing or label.   |
|     | In case of skin contact  |
|     | Wash immediately with:: Water  |
|     | After eye contact  |
|     | In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an    |
|     | ophthalmologist.   |
|     | Following ingestion  |
|     | Do NOT induce vomiting.  |
|     | If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. |
| 4.2 | Most important symptoms and effects, both acute and delayed  |
|     | Dizziness  |
|     | Nausea   |
|     | Gastrointestinal complaints  |
| 4.3 | Indication of any immediate medical attention and special treatment needed   |
|     | If unconscious but breathing normally, place in recovery position and seek medical advice.   |
|     | IF SWALLOWED: Immediately call a POISON CENTER/doctor/   |

# 5.1 Extinguishing media

The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

### 5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

### 5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

### **SECTION 6: Accidental release measures**

|            | Provide adequate ventilation.  |

#### 8.2 Exposure controls

Advices on general occupational hygiene

Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.

Avoid contact with skin, eyes and clothes. Remove contaminated, saturated clothing. Wash contaminated clothing prior to re-use. Wash hands before breaks and after work. Apply skin care products after work.

### Eye/face protection

Suitable eye protection Eye glasses with side protection goggles Face protection shield Recommended eye protection articles EN 166

### Hand protection

Suitable gloves type Gloves with long cuffs Suitable material NBR (Nitrile rubber) Butyl caoutchouc (butyl rubber) Breakthrough time 120 min. Thickness of the glove material > 0.6 mm Recommended glove articles EN ISO 374 Breakthrough times and swelling properties of the material must be taken into consideration.

#### **Body protection**

Body protection: not required.

#### **Respiratory protection**

Usually no personal respirative protection necessary.

#### Environmental exposure controls

Store concentrate according to national regulations. Do not let the concentrate get into the environment. If possible, hold back the application solution and dispose of after use.

### 12.7 Other adverse effects

The product contains fluorosurfactants that are not completely biodegradable.

## **SECTION 13: Disposal considerations**

#### **13.1 Waste treatment methods**

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

## Waste codes/waste designations according to EWC/AVV

### Waste code product

- 16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST
- 1603 off-specification batches and unused products
- 160305\* organic wastes containing dangerous substances

### Waste code packaging

- 15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT
- OTHERWISE SPECIFIED
- **1501** packaging (including separately collected municipal packaging waste)
- 150110\* packaging containing residues of or contaminated by dangerous substances

#### Remark

Delivery to an approved waste disposal company. Send to a hazardous waste incinerator facility under observation of official regulations.

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

### Classification for the 1% application solution of MOUSSOL-APS LV 1/1 F-15 #6101:

The information in this safety data sheet only applies to the unchanged product in the delivery condition. An application solution prepared therefrom by diluting it with water as recommended usually has significantly fewer hazardous features due to the dilution principle and can even be unclassified. See also the environmental data sheet provided by us.
